UPCOMING AIR, WASTE, & WATER-RELATED HEARINGS, MEETINGS, & EVENTS

PUBLIC HEARING REGARDING THE A-1 AUTO PARTS SITE (DE-1172)-Pursuant to 7 Del. C. §9109(a) (3) of the Hazardous Substance Cleanup Act (HSCA), the Department of Natural Resources and Environmental Control (DNREC)-Site Investigation and Restoration Section (SIRS) has rescheduled a public hearing for May 7, beginning at 10:00 a.m. in the Pat Ellis Conference Room at the offices of DNREC, 391 Lukens Drive, New Castle, Delaware 19720. The hearing will address the A-1 Auto Parts Site (Site) located at 410 Garasches Lane in Wilmington. DNREC originally advertised that the public hearing would be held on March 19 at the offices of DNREC, but was recently contacted by the Site owner's counsel to negotiate a Consent Decree to address the performance and payment for a Remedial Investigation/Feasibility Study (RI/FS) to be performed at the Site without the need for an enforcement action. Thus, DNREC agreed to postpone the public hearing to allow enough time to negotiate a Consent Decree. Nevertheless, DNREC will continue to proceed through an enforcement action at a public hearing on May 7 unless the Consent Decree is signed, pursuant to §9109(a) (3) of HSCA, to require a remediation of the Site. Please contact the project manager, Karissa Hendershot or Qazi Salahuddin at ; or visit:

DOCUMENTS AVAILABLE FOR PUBLIC COMMENT OR APPEAL

AIR QUALITY PERMITTING PROGRAM – Notice has been given that the facilities listed below have submitted applications for air quality management permits. The applications, the “draft/proposed” permits, all materials that the applicant has submitted (other than those granted confidential treatment under DNREC rules), and a copy of summary of other materials, if any, considered in preparing the “draft/proposed” permit, may be inspected at the offices of the Division of Air Quality, 655 S. Bay Road, Dover and 715 Grantham Lane, New Castle. All

comments and public hearing requests should be mailed to the following address: DIVISION OF AIR QUALITY, 655 S. Bay Road, Suite 5 N, Dover, DE 19901. To submit comments, for additional information, or for an appointment to inspect the application, please contact Nicole Hill or Penny Gentry at (302) 739-9402.

Title V Modification Applications - Notice is hereby given that Formosa Plastics Corporation of Delaware having a facility at 780 Schoolhouse Road, Delaware City, Delaware, has submitted a request for a significant permit modification pursuant to 7 DE Admin. Code 1130, Section 7 for operating Permit: AQM-003/00027-Renewal (R2). This "draft/proposed" significant permit modification will allow Formosa Plastics Corporation of Delaware to use No. 2 fuel oil as a secondary fuel until January 31, 2016 when it can only use No. 2 fuel oil during periods of curtailment. Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **April 8**. To submit comments, for additional information or for an appointment to inspect the application, please contact Nicole Hill at the Dover Office at 739-9402; or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=2248&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

Title V Modification Applications-Notice is hereby given that Delaware Solid Waste Authority having a facility at 1107 Willow Grove Road, Felton, Delaware, has submitted a request for significant permit modification pursuant to 7 DE Admin. Code 1130, Section 7 for operating permit: AQM-001/00068-Renewal 2. Based on the data and certifications contained in the application, the Division of Air Quality concludes that the applicant meets all applicable requirements promulgated by the Environmental Protection Agency (EPA) and the Department of Natural Resources and Environmental Control (DNREC). Therefore a "draft/proposed" significant permit modification has been prepared. This "draft/proposed" significant permit modification will modify the existing visible emissions monitoring requirements for the passive flares in use at the DSWA Central Landfill. . A public hearing concerning the permitting action will not be held unless the Secretary of the Department of Natural Resources and Environmental Control receives a request for such hearing within thirty (30) days from the date of this notice, ending **April 15**. To submit comments, for additional information or for an appointment to inspect the application, please contact Nicole Hill at the Dover Office at 739-9402; or visit: <http://www.dnrec.delaware.gov/Lists/Public%20Notices/DispForm.aspx?ID=2256&Source=http%3A%2F%2Fwww%2Ednrec%2Edelaware%2Egov%2FLists%2FPublic%2520Notices%2FAllItems%2Easpx&ContentTypeld=0x010034FD6D348B0CF04392485E93FC15AB3A>

SITE INVESTIGATION AND RESTORATION SECTION – The Division's Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of

sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>
